New CUSTOMER DATABASE

Help us help you by completing your customer profile on our new website. This info will be used to tailor your experience at Votruba Archery. Draw length and weight, arrow preferences and more will be stored in one location making tuning, future purchases and potential hunting trip hiccups a breeze!

Check it out now on our website!

The NEW Guy

Hi! My name is Nate Menold. I am 20 years old and was born and raised in the countryside near Sabetha, KS. Ever since I was a young boy, my dad would take me hunting and fishing where he instilled a love for God's creation and the great outdoors in me. Since those childhood days, that love and passion has only grown and flourished into an insatiable desire to spend time...

SHOOT MORE. SUCK LESS.

Outdoor RANGE

Created in 2025, our outdoor range is less than a quarter mile from the shop, right down the street. With 30 targets on over 15 shooting lanes, the landscape is dotted with all types of trees, water features and berms for the perfect challenge. The outdoor range, affectionately dubbed "The Back 4" is open only during events, so be sure to follow us on all the socials or check back here to see when it will be open next!

MEMBERSHIPS AVAILABLE

With over 40 targets arranged for shooting from 6 bays, bring your archery game up to the next level with a Votruba Archery membership. Memberships are prorated and include unlimited range time on our expertly curated 40 yard indoor range during business hours. To keep the course fresh and exciting, we have over 75 premium 3D targets to swap out and arrange so that you never get tired of showing up.

APRIL 11, 2026

JUNE 18-21, 2026

SUMMER 2026

MISSION BY MATHEWS® RANGE™ NEW FLAGSHIP

This bow is designed for archers who want strong performance without stepping into a top-tier price point. It's built around Mission's new MB Switchweight Cam, which allows for easy adjustment from a 22- to 30-inch draw length and 30 to 70 pounds of draw weight without needing a bow press. Mission also highlights the bow's smooth draw cycle, stable feel at full draw, and speeds up to 325 fps.

The bow has a 31-inch axle-to-axle length, a 7-inch brace height, and weighs 4.06 pounds, giving it a balance of maneuverability and stability. It also features a machined aluminum riser and a slim ergonomic grip meant to encourage consistent hand placement and reduce torque. For added personalization, it is compatible with Mission Side Plates.

POSES WITH HIS BOW & A LONGBEARD**

The NEW Guy

continued from page 1
outdoors. From calling turkeys in the spring, to chasing mule deer through the mountains, to sitting the whitetail rut in November, I find myself spending many hours outdoors. More than just the thrill of the hunt, I find a tremendous amount of peace when I have a bow in my hand and miles under my boots. The most important thing to me is my faith and in the Bible, there is a verse that says "Be still, and know that I am God...I will be exalted in the earth!" (Psalm 46:10, ESV) Being able to slow down, be still, and encounter God + His creation is an experience I hope everyone is able to have. I hope to help you along your journey in stewarding the land and wild game we have been so richly blessed with!
